-Statute denoted by MCA.

-Commission Rule denoted by CR.

-Administrative rule denoted by ARM.

Aircraft (MCA 87-6-208)

- It is unlawful for a person to shoot a game animal from an aircraft.
- It is unlawful for a person to use an aircraft for the purpose of concentrating, pursuing, driving, rallying, or stirring up any game animal.
- Aircraft may not be used to locate game animals for the purpose of:
  - hunting those animals during the same hunting day after a person has been airborne, or
  - providing information for another person for the purpose of hunting those animals within the same hunting day after being airborne.

Archery Equipment (MCA 87-6-401, CR)

- It is unlawful to use any chemical or explosive device attached to an arrow to aid in the taking of game animals.
- The following criteria define Archery Equipment. It is unlawful to possess, while hunting game during any Archery Only Season and in Archery Equipment Only areas, archery equipment that does not meet the following criteria:

Hunting Bow: A hunting bow for game animals shall be a longbow, flatbow, recurve bow, compound bow, or any combination of these designs.

- The bow must be a device for launching an arrow, which derives its propulsive energy solely from the bending and recovery of two limbs (includes bows with split limbs).
- The bow must be hand-drawn by a single and direct uninterrupted pulling action of the shooter. The bowstring must be moved from brace height to the full draw position by the muscle power of the shooter's body. The energy used to propel the arrow shall not be derived from any other source such as hydraulic, pneumatic, mechanical, or similar devices. These limitations shall not exclude the mechanical leverage advantage provided by eccentric wheels or cams, so long as the available energy stored in the bent limbs of the bow is the sole result of a single, continuous, and direct pulling effort by the shooter.
- The bow must be hand-held. One hand shall hold the bow, and the other hand draw the bowstring. The bowstring must be moved and/or held at all points in the draw cycle entirely by muscle power of the shooter until release. The bowstring must be released as a direct and conscious action of the shooter, either relaxing the tension of the fingers or triggering the release action of a hand-held release aid.

Exception: Physically disabled bowhunters certified by FWP with the Permit To Modify Archery Equipment (PTMAE) are exempted from the requirement of holding or shooting the bow with their hands.

> A bow is considered lawful if it is at least 28 inches in total length.

> The nominal percent of let-off for hunting bows shall be a maximum of 80 percent as advertised by the manufacturer.

Arrow: An arrow is a projectile at least 20 inches in overall length. The length of the arrow is measured from the rearward point of the nock to the tip of the broadhead.

- A broadhead is mounted on the fore end.
- The arrow shall weigh no less than 300 grains with the broadhead attached.
- Arrows must have broadheads with at least two cutting edges and be at least 7/8 inches at the widest point. Expandable broadheads are lawful as long as when expanded they are at least 7/8 inches at the widest point, and weigh no less than 70 grains.

The following are not considered a hunting bow or lawful archery equipment during the Archery Only Season or in an Archery Equipment Only area or hunting district:

-Crossbow.

-Any device with a gun-type stock or incorporating any device or mechanism that holds the bowstring at partial or full draw without the shooter's muscle power.

-Any bow for which a portion of the bow's riser (handle) or any track, trough, channel, or other device that attaches directly to the bow's riser contacts, supports, and/or guides the arrow from a point rearward of the bow's brace height. This is not intended to restrict the use of standard overdraw systems.

-Electronic or battery-powered devices attached to a hunting bow or arrow. **Exception:** Camera devices attached to bows for the sole purpose of filming is allowed.

- A bow sight or arrow that uses artificial light, luminous chemicals such as tritium, or electronics. **Exception:** an arrow may have a lighted nock.

Artificial Light (MCA 87-6-401) - It is unlawful for anyone to take or attempt to take any game animal or game bird with the aid of projected artificial light. Disturbing Traps or Trapped Animals (MCA 87-6-601(5)) - A person may not destroy, disturb, or remove any trap or snare belonging to another person or remove wildlife from a trap or snare belonging to another person without permission of the owner of the trap or snare, except that from March 1 to Oct. 1 of each year a person may remove any snare from land owned or leased by the person if the snare would endanger livestock. This requirement does not apply to a law enforcement officer acting within the scope of the officer's duty.

Evidence of Sex (MCA 87-6-406) - A person who kills a game animal in this state shall retain evidence of sex of the animal with the carcass until it is processed. The provisions of this section do not apply to a game animal harvested using a license with which either sex of the animal may be taken. Evidence of sex does not need to be naturally attached. Evidence of sex of a mountain lion does not need

to be retained until a male or female quota or subquota is reached. Once any male or female quota or subquota is reached, evidence of sex must be retained with a mountain lion carcass until it is processed.

Excess Harvest Resulting in an Unlawfully Taken Animal - If you or a member of your hunting party shoots an animal that results in an unlawfully taken animal, you should notify an FWP game warden or 1-800-TIP-MONT (1-800-847-6668) immediately and follow their instructions.

> Hunters should field dress the animal but DO NOT transport the animal until you've received instructions.

- originate from a state or province not listed below as having documented occurrences of Chronic Wasting Disease or

- Currently, there are no cooperative agreements between FWP and any of the Tribal Governments in Montana and as such the season for the hunting of game animals, by nonmembers, with a state license is closed. Please contact FWP for further information.

  - verification of sex.
  - removal of a tooth for aging purposes.
  - issuance and attachment of a hide tag. The hide tag must thereafter remain attached to the hide until tanned.

A person licensed to hunt and authorized to possess a carcass of a game animal that requires mandatory department biological inspection may, after validating and attaching the license or tag in accordance with 87-6-411, transfer possession of all or part of that game animal to any person at any time after leaving the site of the kill, provided a statement of possession has been completed. The statement of possession must be on a form prescribed by the department and signed by the licensed person and the person or persons receiving possession, and must accompany the carcass or portion of carcass presented for inspection.

REMINDER: The hunter must still personally report their harvest by phone as required even if a transfer form is completed.

Trichinella in Mountain Lions

Trichinella is a parasite of mammals and some birds. Immature parasites develop cysts in the muscle of the host animal and are transmitted to a new host when infected meat is eaten raw or undercooked. Wild animals rarely show signs of infection. Humans and domestic dogs or cats can become infected with Trichinella by consuming raw or undercooked meat from an infected animal. Symptoms of infection vary and may be severe. All bear and mountain lion meat should be treated as if it were infected. Freezing will not kill the organism; however, cooking at temperatures above 165 degrees Fahrenheit will kill the parasite. Many processing techniques (jerky and smoked meats) may not reach the proper temperature. FWP recommends that all mountain lion and bear meat be well cooked to an internal temperature of 165 degrees before consumption by humans or pets. FWP does not offer Trichinella testing. For further information, call the FWP lab at 406-994-6357.

Common Sense Precautions When Field-Dressing Game Animals

To minimize risk of disease or parasite transmission to humans, follow these proper ways to handle wild meat:

- Wear rubber (latex) gloves when field dressing game.
- Minimize contact with animal fluids, brain and spinal tissues.
- Wash hands and instruments thoroughly after field dressing or processing.
- Cook all meat until well done before consuming.

To minimize the risk of disease or parasite transmission to your domestic dog, prevent the consumption of game animal viscera.

Hunter Access

Hunters, it is your responsibility to know where you are, to know who owns the land, and to know what access restrictions apply.

Federal Land Access

- National Parks Service: National Parks are closed to hunting. For other lands administered by the National Park Service, please contact the specific site managers for additional information.
- National Wildlife Refuges – More restrictive regulations, including species-specific restrictions and closures, may apply to national wildlife refuges open to public hunting. Contact the specific refuge and/or visit **fws.gov/refuges** for additional information.
- U.S. Forest Service: Area-specific closures or restrictions may apply. Inquire at the appropriate Regional Forest Service Office.
- Bureau of Land Management: Area-specific closures or restrictions may apply. Inquire at the appropriate BLM Field Office.
- Other Federal lands: Area specific closures or restrictions may apply. Inquire at the local federal land management agency office.

Unlawful Posting of State or Federal Land (MCA 45-8-115) It is unlawful for a person to knowingly post land that is under the ownership or control of the state or federal government to restrict access or use of state or federal land.

Fishing Access Sites

Many of Montana's Fishing Access Sites (FAS) offer hunting opportunities, however certain restrictions may apply such as no-hunting safety zones and/or restrictions on the type of hunting weapon or firearm that may be used. Refer to the Fishing Access Site website at **myfwp.mt.gov/fishMT/explore** for site specific information, opportunities and restrictions.

Indian Reservation Trust Lands

Some reservations may offer game animal hunting opportunities with the use of tribal licenses to non-members. Please contact the appropriate Tribal Government. See "Contacts Outside FWP" on page 16 for contact information.

Montana State Parks

Some of Montana's State Parks provide hunting opportunities; however certain restrictions may apply such as no-hunting safety zones and/or restrictions on the type of hunting weapon or firearm that may be used. Contact the specific park and/or refer to the Montana State Park website at **fwp.mt.gov/stateparks/** for site-specific information regarding hunting opportunities and restrictions.

Railroad Access

Railroads and railroad right-of-ways are private property and may not be hunted without permission, nor should they be used as access to other lands (private or public) without explicit permission from the railroad.

State Game Preserves

See Restricted Area Descriptions.

State School Trust Lands

Additional information, including closures and restrictions, is available from the DNRC at 406-444-2074

- A Conservation License provides hunters, anglers and trappers access to lawfully accessible State School Trust lands for related activities during applicable seasons. Additional permitting is required through the Department of Natural Resources and Conservation (DNRC) for trapping on trust lands.
- Overnight use must not exceed the following limits: two consecutive days on leased land, 16 consecutive days within designated campgrounds or on unleased land.
- Motorized travel is only allowed on public roads or on roads designated as open. This restriction applies to all activity including game retrieval.
- Firearms may not be discharged upon trust lands within one-quarter mile of inhabited dwellings or outbuildings on state trust lands without permission of the inhabitant.
- Open fires are prohibited outside of fire pits within designated campgrounds.

State Wildlife Management Areas (WMA)

FWP's Wildlife Management Areas are generally open to hunting during the game animal hunting season. WMAs with big game winter range are closed to public entry, unless otherwise posted, from the day following the end of the general deer-elk season or December 1, whichever is later, to noon on May 15 each year, as posted.

Exception: There are several exceptions to these guidelines. For WMA-specific information, please call the Regional office (see page 16 for contact numbers) or visit the FWP website: **fwp.mt.gov**

Stream Access Law

The Stream Access Law does not allow for the hunting of game animals between the ordinary high water marks of streams and rivers without landowner permission.

Together, we can stop poachers.

It's time to say Enough is Enough!

Year-round and statewide, poachers are taking Montana's biggest and best game animals. Poaching is illegal. And it robs law-abiding hunters of hunting opportunities.

FWP game wardens have broken major poaching rings recently. TIP-MONT callers have increased the effectiveness of our warden's ability to protect Montana's resources. With your help, we can reduce poaching.
